

Someone asked, 'Why do I need to go to a church building? Why can't I be spiritually 'moved' going to places on my own? Like going to the mountains or into the forest and 'feel' close to God there?' Well, it's certainly true that you can be 'close' to The Lord wherever you are. In fact, it's a good idea to get alone and appreciate God's creation. However, it is more gratifying and rewarding to, also, gather and worship together because we need each other as much as the fingers need the thumb. We need each other's encouragement, each other's knowledge and wisdom. We need that 'Holy-hug' and handshake. **Church is not just a place we go to; it is a family we belong to.** Amen. *(Written & shared by Art Frank)*
